

PRODUCTION GOALS FOR FRUIT GARDENS

What are my favorite fruits?

How often do I eat these favorites?

If I grew fruit myself, would I eat more?

How much room do I have for fruit in my refrigerator?

How much room do I have in my freezer for fruit?

Do I like to preserve food (dehydrate/freeze dry/can/sauce etc)?

Do I have friends/neighbors who will take my extra fruit in years with heavy crops?

YEILD	Per Person	Per Plant
Apple	2 dwarf tree	1-4 bushels – dwarf 5-10 bushels – semidwarf 1-20 bushels - standrd
Blackberry	5 plants	10+ lbs per plant
